

Technical Rider Pilod 2022

Hello! Thanks for booking Pilod. See this rider as a lead. We can always talk about it.

Line up:

Frédéric: lead vocal, guitar

Christophe: bass

Anton: guitar

Timo: drums

Sound Engineer: Steven Crabbé (0032 495 62 82 50 crabbe.steven@telenet.be)

No Monitor Mixer

No Light Engineer

Pilod requires 45 minutes to set-up and do a line- and soundcheck. It can be faster for festivals.

The PA must be up and running properly by our scheduled arrival time.

The power supply for the PA should be grounded and used only for the sound system and the bands' equipment. No lights on these power groups.

In general the PA-system should be adequate for the size of the room and of a decent quality.

The mixing desk should be placed in the middle of the room. Not under a balcony or acoustic bad place.

CHANNEL	INPUT	MIC	STAND	INSERT
1	Kick In	E 901*		
2	Kick Out	Beta 52	Small	
3	Snare Top	SM 57	Small	Compressor

15	Guitar Fré L	BF521*	Small	
16	Guitar Fré R	C214*	Small	
17	Vocal Fré	SM58	Small	Compressor

** we bring these mics, when Steven doesn't travel with the band a standard set of mics will do*

F.O.H.-desk:

- 24 ch minimum
- 4 band parametric EQ
- if monitors are send from FOH we need 4 aux pre-fader (MON) and 3 aux post-fader (FX)
- 3 stereo returns
- We don't mind a digital desk, but please contact Steven first

Inserts & FX:

We like to have two quality reverbs (plate) and one quality tap delay.
3 quality compressors en 3 quality gates will do

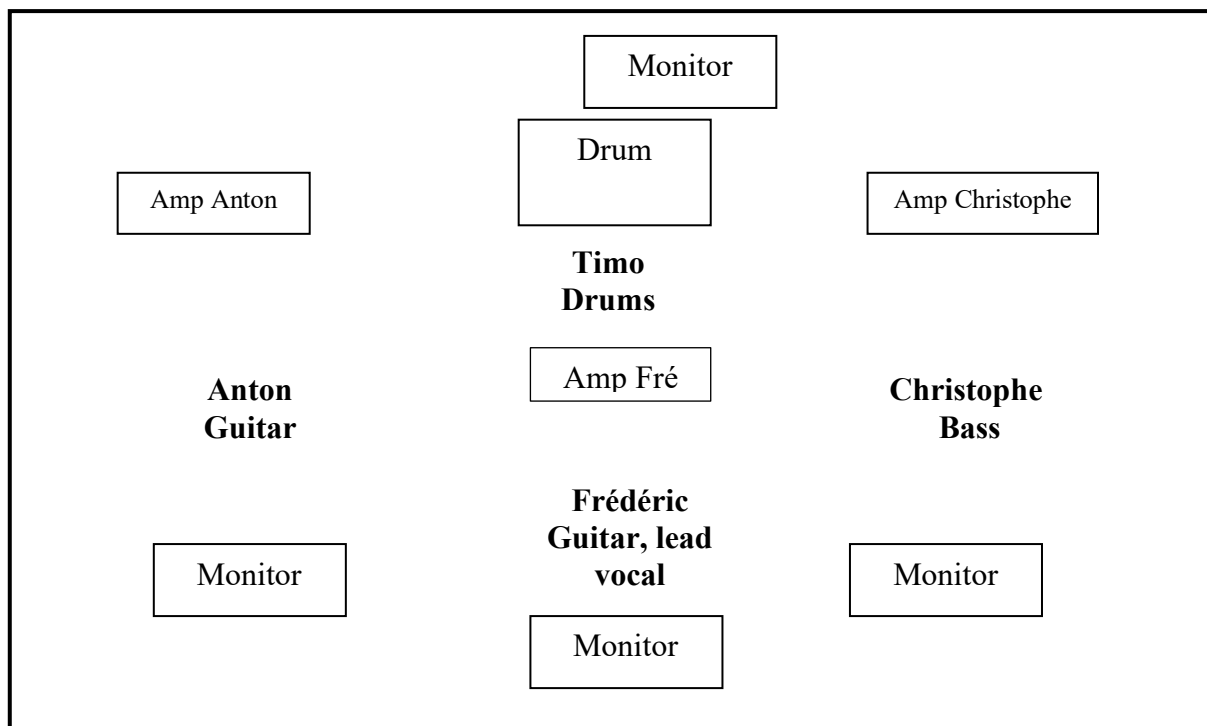

Monitors:

- 4 good quality wedges
- graphic equalizers for each wedge
- if monitors are not send by FOH, a friendly and good monitor mixer

Lights:

Please create a dark melancholic atmosphere. We really love floorlights!

Stageplan:

If there is any problem with the requirements of this rider or you still have some questions, please contact crabbe.steven@telenet.be or 0032 495 62 82 50

For small venues like bars, living rooms, garden party's,... please contact Steven to find a solution to have a good sound.
